sunpro[®] solar gas continuous

Why you should choose a Dux Sunpro[®] solar gas continuous system

- Gas boosted solar is one of the most environmentally friendly domestic hot water solutions available
- Next generation split system design with the tank on the ground
- High performance black chrome selective surface collectors as standard
- Flexible continuous flow mounting options – on a wall or a tank, allowing for greater installation flexibility (comes with mounting bracket)
- Ability to install the tank internally while still having the continuous flow unit mounted externally (distance restrictions apply)
- Wall mounting of continuous flow unit reduces footprint for better side access, particularly on smaller blocks
- Available in both LPG and Natural Gas

STCs Table – Gas Boosted Systems

OPEN CIRCUIT SYSTEMS		COLLECTORS	STC ZONE			
			1	2	3	4
250 Litres	Sunpro Gas Boosted, 20L	2	36	40	35	30
250 Litres	Sunpro Gas Boosted, 26L	2	36	40	35	30
315 Litres	Sunpro Gas Boosted, 26L	2	35	40	35	30
400 Litres	Sunpro Gas Boosted, 26L	3	43	45	44	39

Calculations are based on Dux 2AP style collector. STC values are subject to change without notice and are correct at time of printing.

Did you know

As a guarantee of performance all Dux[®] solar water heaters are supplied with a genuine Reliance[®] brand Dux[®] solar tempering valve. These valves have been adjusted to Dux specification to ensure maximum hot water delivery.

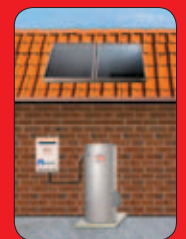

CAPACITY (LITRES)	PEOPLE	
250		4–6
315		4–7
400		4–8

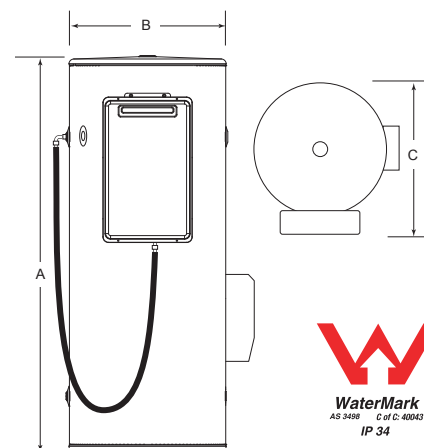

Size figures are based on environmental averages which can effect the performance of solar & heat pump heaters. Adult icon can represent dishwasher or washing machine. An adult icon does not represent a spa bath.

Continuous flow unit can be mounted on a wall or the tank, allowing for greater installation flexibility

SPECIFICATIONS	250 LITRE	250 LITRE	315 LITRE	400 LITRE

Warranty

Full warranty terms and conditions are in the product's Owner's Manual ("the warranty"), which you must comply with for a warranty claim to be honoured by Dux.

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

Under the warranty, the transport, installation and labour costs of delivering the replacement hot water unit or solar collector and removing and replacing the existing hot water unit or solar collector with the replacement hot water unit or solar collector will be your responsibility, unless otherwise agreed by Dux. The benefits provided to you by the warranty are in addition to the guarantees and other rights and remedies available to you under the Australian Consumer Law.

How to Make a Warranty Claim

Warranty claims can be made at the point of sale or by posting or faxing a warranty claim to the manufacturer (contact details listed below) within one (1) month of the appearance of a defect. Warranty claims must include the following details: date of purchase, location of purchase, proof of purchase, date of installation, contact details, and product serial number.
